THE 12th INTERNATIONAL SYMPOSIUM ON EAST ASIAN RESOURCES RECYCLING TECHNOLOGY

3rd-7th November, 2013
Zhangjiajie · Hunan · China

Organizers

The Nonferrous Metal Society of China

Central South University

■ Co-Organizers

- Chinese National Engineering Research Center for Control & Treatment of Heavy Metal Pollution
- The Mining and Materials Processing Institute of Japan
- The Korean Institute of Resources Recycling
- The Formosa Association of Resource Recycling
- Energy Research Institute of Chulalongkorn University, Thailand

■ Support

- Ministry of Science and Technology of the People's Republic of China
- Ministry of Environmental Protection of the People's Republic of China
- National Natural Science Foundation of China
- China Nonferrous Metals Industry Association
- China Association of Resource Comprehensive Utilization
- Professional Committee for Pollution Prevention & Control of Heavy Metal of Chinese Society for Environmental Sciences
- International Copper Association Ltd., China
- New World Environmental Services Group
- Hunan Vary Tech Co., Ltd

Welcome to the 12th International Symposium on East Asian Resources Recycling Technology (EARTH2013)

On behalf of the organizers of the 12th International Symposium on East Asia Resources Recycling Technology (EARTH2013), the Nonferrous Metals society of China (NFsoc) and Central South University, I sincerely invite you to attend EARTH2013 to be held in Zhangjiajie, China on November 3-7, 2013.

After over 20 years of development, the International Symposium on East Asia Resources Recycling Technology (EARTH) has become one of the oldest conferences that have the largest coverage and the most influence in the field of recycling technology in East Asia. Following the successful eleven predecessors of the EARTH series, EARTH2013 will cover seven major topics and share the experiences and achievements related to all aspects of resources recycling in the last two years. As usual we will invite representatives of member countries and regions to deliver plenary lectures in the opening ceremony, which will mainly focus on the latest and most important research achievements in resource recycling technology in these countries and regions. EARTH2013 will bring some new features. The topics will emphasize on seeing resource recycling from the perspective of environmental protection and concentrate on two major issues, “urban mine” and “treatment and reclamation of heavy metals pollutants”. In addition, keynote speeches by distinguished young scientist will be a newly added section that will provide them with opportunities to present their latest research findings. EARTH2013 will be not only a unique opportunity for participants to learn the up-to-date advances at the forefront of this field, but a fabulous platform for industry experts, scholars, students, business people and officials to communicate and cooperate as well.

EARTH2013 will be held in Zhangjiajie, a beautiful eco tourist city. Located in the northwestern part of Hunan province and lying at the heart of Wuling Mountains, Zhangjiajie is one of the prime tourist destinations in China. With its long history and impressive views, Wulingyuan, a UNESCO World Heritage Site as well as a national AAAAA scenic area, is comprised of Zhangjiajie National Forest Park, Suoxi Valley Nature Reserve and Tianzishan mountain ranges. Zhangjiajie is largely inhabited by ethnic minorities, making it a splendid combination of rich ethnic customs and exquisite natural scenery. It has been striving to develop green tourism and aiming at the harmony between man and nature and sustainable development, perfectly matching the theme of the symposium of this year.

Participants all over the world are warmly welcomed to EARTH2013 in Zhangjiajie to celebrate the event together!

Liyuan Chai 

Ph.D, Professor

Chairman of EARTH2013

Topics

The scope of the symposium covers all aspects related to the resources recycling. Topics of interest include, but are not limited to the followings:

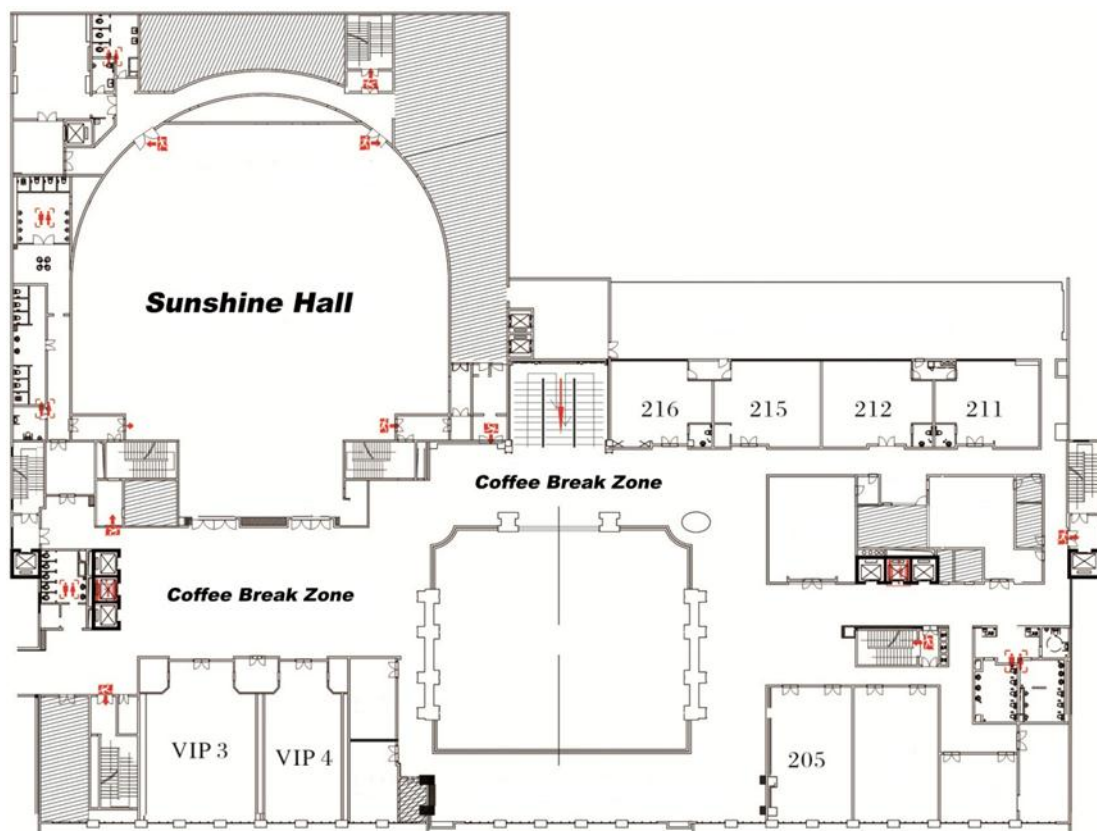

1. Policy, management system and life-cycle evaluation;
2. Recycling & utilization of industrial wastes: metals, slag, sludge, ash, catalyst, effluence, wastewater, gaseous waste, etc;
3. Recycling & utilization of electrical and electronic wastes;
4. Recycling & utilization of end-life vehicles, rubber, plastic, paper, glass and other living wastes;
5. Development of technologies for recycling and waste minimization production;
6. Treatment of heavy metals pollutants and resource recycle technology;
7. Environmental protection and other related issues.

Schedule

Time	Content	Venue
3 rd Nov., 2013		
13:00-18:00	Registration	Lobby of the first floor
18:00-21:00	Welcome party	Sunshine Hall
4 th Nov., 2013		
7:00-8:00	Breakfast	Cafeteria and Furong Hall
8:00-8:30	Check in	Sunshine Hall
8:30-9:00	Opening ceremony	Sunshine Hall
9:00-10:20	Plenary lecture (Section I)	Sunshine Hall
10:20-10:40	Coffee break	Coffee break zone
10:40-12:00	Plenary lecture (Section II)	Sunshine Hall
12:00-13:30	Lunch (Buffet)	Cafeteria and Furong Hall

14:50-16:55	Distinguished Young Scientist Lecture	Sunshine Hall
16:55-17:15	Representative Enterprise Lecture	Sunshine Hall
18:30-21:30	Farewell banquet	Sunshine Hall
6 th – 7 th Nov., 2013		
All days	Tours	

Conference venue (The second floor of the Sunshine Hotel & Resort Zhangjiajie)

Plenary lecture: Section I

Chairmen: Dingfan Qiu, Beijing General Research Institute of Mining and Metallurgy

Shuji Owada, Waseda University

- 9:00-9:40, 4th Nov.
Topic: Policy and Technology of Recycling for Treating Heavy-Metal Pollutants
Lecturer: Xiaobo Min
Professor
Central South University
- 9:40-10:20, 4th Nov.
Topic: Status and Technological Trend of Metal Recycling in Korea

Lecturer: Joonsoo Kim

Principal Researcher
Korea Institute of Geoscience and Mineral Resources

Plenary lecture: Section II

Chairmen: Juu-En Chang, National Cheng Kung University

Hyungkyu Park, Korean Institute of Resources Recycling

- 10:40-11:20, 4th Nov.
Topic: Recovery of rare earths from phosphate gypsum
Lecturer: Junji Shibata
Professor
Kansai University
- 11:20-12:00, 4th Nov.
Topic: Engineering Feasible Process Developments for Recycling
Lecturer: H. Paul Wang
Distinguished Professor
National Cheng Kung University

VIP4	13:30-13:50	I-02-14. Process Assessment of Recycling of Waste White Goods in Korea. Kihong Kim, Heechan Cho, Jinan Jeong, Seoul National University Sookyung Kim, Korea Institute of Geoscience and Mineral Resource
	13:50-14:10	I-03-26. A study on Application of Geopolymeric Green Cement. Y. S. Dai, L. C. Yang, Y. C. Ding, C. W. Jhong, T. W. Cheng, National Taipei University of Technology K. L. Lin, National Ilan University
	14:10-14:30	I-05-40. Investigation of Chlorination-Volatilization Behavior of

		Valuable Metals in Jewelry Grinding Sludge. Kazutoshi Haga, Atsushi Shibayama, Akita University
	14:30-14:50	I-18-219. An Overview on Utilization of Coal Tar Pitch and Its Development in China. Yuhui Ma, Wei Su, Qunhui Wan, University of Science and Technology Beijing, Chunyan Shao, Xiangguo Huang, Shenyang Academy of Environmental Sciences, Jin Yuan, Shanxi Ecological Environment Research Center
Topic 2 Chairmen: Chengyan Wang, Beijing General Research Institute of Mining and Metallurgy Wataru Hareyama, Iwate University		
VIP3	13:30-13:50	II -01-7. Flotation of Anode Slime in Copper Electro-refining Mayumi Ito, Takashi Ikemoto, Naoki Hiroyoshi, Hokkaido University
	13:50-14:10	II -20-67. A Study on Recovery of Silicon Carbide from Silicon Sawing Waste by Hydrocyclone Chih-Wei Hsu, Wei-Hao Lee, Ta-Wui Cheng, Chin-Shan Lin, National Taipei University of Technology
	14:10-14:30	II -75-215. Fundamental Process of Iron Nanoparticle Synthesis for the Recovery of Neodymium Magnet Yonghwang Ha, Ryun Ji Gang, Hea-Bin You, Jong-Gwan Ahn, Jungwon University, Ho-Sung Yoon, Korea Institute of Geoscience and Mineral Resources
	14:30-14:50	II -63-193. Recovery of Potassium Chloride from Sintering Fume of Ironmaking Works Guang Zhan, Zhancheng Guo, University of Science and Technology Beijing
Topic 3 Chairmen: Zhonghan Zhang, Guangzhou Research Institute of Nonferrous Metals SOHN HO-SANG, Kyungpook National University		
205	13:30-13:50	III-04-35. Recovering Gold from IC Chip by Using Superheated Steam. Fumihiro Kondoh, Hitoshi Ohya, University of Kitakyushu Nobuhiro Inoue, Yuji Komori, Fine metal Div., Astec Irie Co., Ltd.
	13:50-14:10	III-16-95. Separation of Manganese from Ternary Cathodic Material of Spent Lithium Ion Battery Using Mixture of Versatic 10 acid and PC88A Dong Ju Shin, Sung-Ho Joo, Shun Myung Shin, Korea Institute of Geoscience & Mineral Resources, Korea University of Science & Technology
	14:10-14:30	III-21-108. Leaching of Y from Spent Fluorescent Powder with Nitric Acid Ching-Hwa Lee, Ching-Hua Liao, Chi-En Hung, Elon-Ishmael Cadogan, Ying-Wen Chan, Fan-Yuan Chang, Chia-Hao Kuo, Huang-Chi Chen,

		Da-Yeh University
	14:30-14:50	III-27-221. Measuring the Potential of E-waste Recycling. Xianlai Zeng, Jinhui Li, Tsinghua University
Topic 4 Chairmen: Yaozhong Lan, Yunnan University Churl Kyoung Lee, Kumoh National Institute of Technology		
216	13:30-13:50	IV-4-74. Experimental Study on Deeply Purifying Ink Wastewater Using Navel Orange Peel Yunnan CHEN, Dongshuang WANG, Chunhua LIU, Lichao DING, Jinxia NIE, Jie ZENG, Jiangxi University of Science and Technology
	13:50-14:10	IV -13-217. Conjunctive Effect of Topdressing and Reclaimed Municipal Wastewater Irrigation on Rhizosphere Soil Nitrogen Supplying Capacity of Greenhouse Tomato Ping Li, Chao Hu, Xuebin Qi, Zhijuan Zhao, Xiangyang Fan, Chinese Academy of Agricultural Sciences
	14:10-14:30	IV-09-133. Development of Lead Nano-Powder Using Waste CRT Glass as Raw Material Fu-Shen Zhang, Mingfei Xing, Chinese Academy of Sciences
	14:30-14:50	IV-12-195. Synthesis of Nano-precipitated Calcium Carbonate by Carbonation Process Through Loop Reactor: Application to Waste Plastic Chul-Seoung Baek, Jin-Sang Cho, Kye-Hong Cho, Korea institute of limestone & advanced Materials, Ji-Whan Ahn, Korea Institute of Geoscience and Mineral Resources, Choon Han, Kwangwoon University
Topic 5 Chairmen: Chaobo Tang, Central South University Chih-Ta Tsai, National Cheng Kung University		
211	13:30-13:50	V-15-205. Effect of Water Content on Accelerated Carbonation of MSWI Bottom Ash with CO₂ Gas and the Carbonation Kinetics Namil Um, Ji-Whan Ahn, Korea Institute of Geoscience and Mineral Resources Seong-Young Nam, Inha University Young-Jun Ahn, Kwangwoon University
	13:50-14:10	V-01-3. Study on Removal of Water-soluble Chloride from Crude Zinc Oxide and the Dechlorination of Wastewater by Synthesis of LDHs Wai-Hao Lee, Ta-Wui Cheng, National Taipei University of Technology, Teng-Ker Hsu, Chia-Cheng Wu, CHC Resource Corporation
	14:10-14:30	V -12-135. Preparation of Active Ceria and Its Desulfurization Properties Qingchun Yu, Yong Deng, Wang Fei, Baoqiang Xu, Dachun Liu, Bin Yang, Kunming University of Science and Technology
	14:30-14:50	V-09-55. The Effective Carbon Dioxide Sequestration by Mineral

		Carbonation of Waste Cement with Flue Gas Myoungwook Mun, Heechan Cho, Seoul National University
Topic 6 Chairmen: HIROSHI NAKAZAWA, Iwate University Jun-Yi Wu, National Cheng Kung University		
212	13:30-13:50	VI-01-19. Modeling of Column Test for Metal Contaminated Soil Washing under Saturated/unsaturated Flow Taisuke Sakakibara, Kyohei Takeshita, Chiharu Tokoro, Waseda University Satoshi Kawakami, Dowa Eco-system Co.,Ltd.
	13:50-14:10	VI-03-59. Recovery of Zinc from Hydrometallurgical Zinc Residue Zhang yali , Yu xianjin, Yang jing, Yang liquan, Shijuanhua, Shandong University of Technology
	14:10-14:30	VI -04-70. Resource Recycling of Copper-contaminated Sludge Derived from Wastewater Treatment with Bayer Process Shao-Hua Hu, Sheng-Fong Sie, Dahan Institute of Tech
	14:30-14:50	VI-13-260. Removal of impurities in aurum tailings by bio-leaching and the comprehensive utilization of it Xu-Jianing, Yang-Hongying, Northeastern University
Topic 7 Chairmen: Kyung-Ho Park, Korea Institute of Geoscience and Mineral Resources Shaopeng Li, Institute of Process Engineering, CAS		
215	13:30-13:50	VII-22-162. Research on the Process Mineralogy Characteristics of Bauxite from Guizhou Province Yueqin Qiu, Qin Zhang, Guizhou University
	13:50-14:10	VII-13-57. Characteristics of Mercury Vapor from Spent Fluorescent Lamps. Seung-Whee Rhee, Hun-Su Park, Kyonggi University
	14:10-14:30	VII-01-17. DEM Simulation for the Optimization of a Wet-type Media Agitation Grinding Mill. Kentaro Hayashi, Yuki Tsunazawa, Chiharu Tokoro, Waseda University Hideaki Iituka and Osamu Ishikawa, Nippon coke & engineering co., ltd.
	14:30-14:50	VII-18-134. Process and Kinetics of Cyanide Barren Solution by Ion Exchange Resin. YU Xian-jin, ZHANG Ya-li, FANG Tao, YANG Jing, Shandong University of Technology

Section B: 15:10-16:30, 4th Nov., 2013

Room	Time	No., title, lecturers and affiliations
Topic 1 Chairmen: Ya-Min Hsieh, Taiwan Shoufu University Kazuharu Yoshizuka, the University of Kitakyushu		
VIP4	15:10-15:30	I -16-189. Prediction of the Distribution of Minor Elements in Co-smelting of WEEE and Copper Concentrate.

Distinguished Young Scientist Lectures (14:50-16:55, 5th Nov., 2013)

Chairmen: Wei-sheng Chen, the Formosa Association of Resource Recycling

Dawan Wiwattanadate, Chulalongkorn University

- 14:50-15:15, 5th Nov.
Topic: Policies and Technologies of “City Mineral” Recycling in China
Lecturer: Hui Liu
Distinguished research fellow
Central South University
- 15:15-15:40, 5th Nov.
Topic: Recovery of Metallic Nickel from Fe-36Ni Alloy Scrap using Magnesium Reduction
Lecturer: Jei-Pil Wang
Assistant Professor
Pukyong National University
- 15:40-16:05, 5th Nov.
Topic: Improvement of the Durability of Solvent Impregnated Resin Using Acidic Organophosphorus Extractant
Lecturer: Mikiya Tanaka
Ph. D.
National Institute for Pollution and Resources, Japan
- 16:05-16:30, 5th Nov.
Topic: Recycling technology development of oil-fired fly ash in Taiwan
Lecturer: Ya-Min Hsieh
Assistant Professor
Taiwan Shoufu University

- 16:30-16:55, 5th Nov.
Topic: CO₂ Capture, Storage and Utilization
Lecturer: Kreangkrai Maneeintr
Ph. D.
Chulalongkorn University

Representative Enterprise Lecture (16:55-17:15, 5th Nov., 2013)

- **The Novel development model of “City Mineral”**
New World Environmental Services Group
- **The Future of Recycling Industry**
Hunan Vary Tech Co., Ltd

Travel

Trip 1: One day deluxe tour to Yellow Dragon Cave and Baofeng Lake

Quotation: 266 RMB

After breakfast, you will visit the Yellow Dragon Cave which is known as the Best Cave in China. After lunch, visit the World Wonderland-Baofeng Lake, which is the representative spot of Wulingyuan scenery.

Quotation inclusion: 1) All entrance fees to the scenic spot specified above; 2) Local excellent tour guide for the whole trip; 3) One lunch (Chinese Tujia flavor food, ten people a table); 4) Air conditioned tourist bus; 5) Liability insurance of the travel agency.

Quotation exclusion: 1) All cable car fees; 2) Extra costs caused by manpower irresistible factors (such as flood, landslide, rainfall, airline flight delay and cancel).

Trip 2: Two days deluxe tour to Zhangjiajie landscape and Yellow Dragon Cave

Arrival

On the on-site registration day, we will shuttle participants at Zhangjiajie Lotus International Airport and Zhangjiajie Railway Station.

Travel to Zhangjiajie

The transportation to Zhangjiajie is very convenient. Zhangjiajie Lotus International Airport provides domestic flights to main cities, as well as direct international flights to Japan, Korea, Thailand and Taiwan. Through the Shichang Railway, Zhangjiajie is connected with the national railway network and has trains shuttling between Zhangjiajie and a number of large and medium-sized cities, such as Beijing, Shanghai, Guangzhou, Shenzhen, Changsha, Nanning, Guiyang, Yichang, Zhanjiang. You can also transit to Zhangjiajie from Changsha by coach. After arriving in Changsha by international flights, domestic flights, High Speed Rail or train, you can take train or coach to Zhangjiajie. We recommend coach by which it takes you 4 hours directly from Changsha Huanghua Airport, Changsha South Railway Station or Changsha Railway Station to Zhangjiajie. When you arrive in Zhangjiajie, you can take taxi to your hotel.
